RADZOR CONTRACTORS PTY LTD

RADZOR Contractors Pty Ltd is a fresh face for an experienced industry.

Summary

Local and Indigenous owned civil construction and project management company for Defence and privately funded projects in the NT.

Description

RADZOR Contractors Pty Ltd is a fresh face for an experienced industry.
Locally based in the NT, shared ownership between an indigenous Site Manager and a female Project Manager, this team is experienced in various project delivery such as
Infrastructure and building internal upgrades, improvements, installations and renovations
Civil delivery in roads, drainage, sewer, bulk earthworks, soil remediation through aeration, sieving, and blending including asbestos contaminated soils, acid sulfate soils and PFAS or PFOS contaminated soils
Electrical and fire detection systems installations and upgrades
Commercial and industrial wastewater and desalination treatment plants
Hydraulic installations, assessment and testing
Concrete and Rock removal and recycle
Vacuum truck services for bulk waste removal
RADZOR has partnerships with local and experienced contractors that are experts in their individual services areas, bringing together the local community, providing value for service to the client, ensuring that local content is and will remain a core value of the Company's, while ensuring the growth and sustainability of the Company as a local entity remains a priority.
The business owners bring almost 15 years of Defence service, combined with over 30 years of award winning construction industry experience to the Company.
GOVERNMENT: Local Council, State Projects, LNG, CSG, and Mining
INDUSTRY: Defence, LNG, CSG, Mining, Rail, Mining
CONSTRUCTION: Infrastructure, Building, Civil, Bulk Earthworks, Rehabilitation & Sustainability
TRANSPORT: Waste Management, Remediation, and Recycling
MECHANICAL/ELECTRICAL: Recovery Works and Disaster Management
WATER SYSTEMS &TREATMENT PLANTS: Sewer, Septic & Water Treatment Systems

Accommodation Services for remote worksites and locations is a part of the overall expectation management to the client that RADZOR can deliver within the scope of project works.

Risk Identification and Assessment - including assistance with the identification of environmental & Occupational Health and Safety risks, facilitation of risk identification workshops, establishment of risk management processes, procedures & documentation including hazard and HSE risk registers.

ISO 14001, AS 4801 and ISO 9001 System that meets all ISO accreditation, RADZOR Contractors assists subcontractors and suppliers as needed to improve their delivery of compliance to align with RADZOR Contractors and client expectations.

Local Involvement and Sustainability is an important value for RADZOR, particularly when involved in remote delivery. All RADZOR team members are aware of the risks and issues associated with the impact construction projects have on small communities and ensures that team members are equipped to manage with a variety of local businesses for supplying any additional personnel, equipment or specific machinery as required in order to leave a small and positive footprint for future generations, including respectful interaction with indigenous culture.

Maintenance is an ongoing option provided by all RADZOR subcontractors and project partners to ensure the longevity of the assets provided to site-based maintenance personnel, RADZOR and its team will work with the client to provide the best solutions to ensure the long term benefit to the Client, and for the life of the installation.

Australian Made products are our preferred requirement for suppliers on projects. Where possible, we source locally, within the Territory, and then within Australia before we seek international solutions for the Commonwealth. This ensures a qualified standard for our installments, warranties that can be honoured, and continuation of supply during most potential business interrupt events.
