## INDUSTRIES SERVED

CONSTRUCTION &  
ENGINEERING

DEFENCE

MANUFACTURING

MINING

OIL, GAS & ENERGY

STEEL

## Company Details

**Address:** Unit 7, 20 Crescent Street  
HOLROYD NSW, 2142 Australia

**Ph:** +61 2 9897 0114

**Fax:** +61 2 9897 0113

**Email:** info@emhindustries.com

**Web:** www.emhindustries.com

**ICN Gateway Company ID:** 127613

**Employees:** 59

**ABN:** 23 134 367 598

**Locations:** 2

**Local Manufacturer:** Yes

**Foreign Manufacturer:** No

**Importer:** No

**Exporter:** No

**NT CAL Accredited:** No

**Works in Remote Locations:** No

**Australian Indigenous Owned:** No

We are a total engineering and labour service provider across Australia that comes with maintenance service to assure the top quality services in metal/steel fabrication, shipbuilding and oil and gas services. Moreover, we manufacture products that need special welding in our facility, and organise supply materials for clients in various sectors.

## Summary

EMH Industries delivers total engineering and labour services across Australia specialized in Steel Fabrication, Mining, Oil & Gas, Shipbuilding and other construction areas.

We also have our own workshop, where has a capacity to

manufacture products that requires special welding such as gas/water pipes and other heavy industrial metal structures.

Our processes and services are accredited to international standards, ISO9001, ISO14001 and AS/NZS4801.

## Description

We are a support services and solution provider predominantly to the steel manufacturing industry and oil and gas industry. We are committed to provide labour hire and engineering services to manufacturing, mining and shipbuilding industries.

Our Processes and services are accredited to international standards (ISO9001, ISO14001) as well as AS/NZS4801. We have our own QHSE(Quality, Health, Safety and Environment) management system. Through this system, we continually improve our work processes, policies and systems to ensure that they are always aligned with international standards and Australian/New Zealand Standards of QHSE.

We have brought SHIPBUILDING EXPERT on board who has been working in the field for almost two decades. He has successfully led more than thirty warships, submarines, and Oil & Gas projects in multiple countries for Chevron, Exxon Mobil, Hyundai Heavy Industries, BP and more. He has organised a team and world wide network connections with ship surveyors (Class DNVGL, ABS & Lloyd), inspectors and supervisors (FROSIO/NACE licenced coating Inspections of pipeline, outfitting, hull and water

ballast tank, accommodation, special coating, PFP (Passive fire protection), Heat resistant, TSA/ TSZ. They are authorised to approve the design of Heavy-duty corrosion and hull structure).

Especially with our partners, Boss and Trans Gas Solution, we are bringing the latest engineering technologies, SOx SCRUBBER and LNG TANKS/tankers to Australia. IMO has announced the enforcement of sulphur content cap regulation and will be applied to all international trade vessels from 2020. SOx Scrubber is one of the methods to comply with the regulation. It ensures high quality, cost effective and installation time efficiency. In another strong partnership with COENS, the largest provider of a comprehensive range of integrated solutions, we are committed to provide procurement solutions as well as technical services such as; Inspection; Repair; Maintenance; Completion; Fabrication; Punch closing; and Rental services with the standards and requirements during the construction stage.

The services in LNG tanks/tankers includes process, piping, electric & instrument, structure, heat & fluid combined analysis and pipe stress, ship design, gas

commissioning, risk assessment, procurement for Cryogenic Equipment for LNG projects, Integrated Automation System & Operator Training Systems.

Our LABOUR SERVICE can provide as follows;

- . 1st and 2nd class welders with strong competencies in MIG & TIG welding, specifically in MMAW, GMAW, FCAW & GTAW,
- . boilermakers with certificate III in engineering and at least three years of industry experience,
- . pipe fitters with extensive experiences in industrial, commercial, marine piping and heating & cooling systems (high pressure pipes),
- . HV electricians with capabilities of repair, maintenance and installation of high voltage electrical systems,

- . scaffolders that can deliver safe industrial scaffold systems,
- . fully licensed riggers,
- . TA
- . and
- . labourers.

The MANUFACTURING CAPACITY in our Sydney facility offers customised production of welding. Fire hydrants, wheelchairs and commercial chairs are the recent projects. We can also supply bolts & nuts, equipment, onshore cleaning and operational materials that are used in FPSO (Floating Production Storage and Offloading) and FLNG (Floating Liquefied Natural Gas platform).

## Associations

- > Training Institution (World Tec College).
- > Australian Welding Institute Members.

---

## Products & Services

- > Offshore construction of plant and infrastructure
- > Installations of SOx Scrubber (vessel retrofit) and LNG fuel tankers
- > Comprehensive construction management and execution
- > Maintenance and Supervision services
- > Project consulting and engineering services
- > Labour hiring services

---

## Accreditations

- > AS 4801:2004 Safety Management System,
- > AS/NZS ISO 9001:2008 Quality Management System,
- > AS/NZS ISO 14001:2015 Environmental Management System,

## Industries Served

- > Construction & Engineering
- > Defence
- > Manufacturing
- > Mining
- > Oil, Gas & Energy
- > Steel

---

## Facilities and Equipment

- > 10-bay fully equipped professional welding facility in Sydney, NSW.
- > Will support the projects by screening welders and other workers for required skills and ensuring they are "job ready"

## Major Clients

- > Labour Hire:
- > Webforge Australia Pty Ltd
- > B & G WELDING NSW Pty Ltd
- > S & L Steel Fab Pty Ltd
- > Independent Pipe Fabrication Pty Ltd
- > AH Fabrications
- > Aline Pumps
- > Alliance Metal Works
- > Firequip
- > MPE Custom Switchboards
- > Lawrence Engineering
- > ACT Steel works
- > Frontline Fabrications
- > Mario & Sons Steel Fabrication
- > TruFlo Plumbing Systems
- > Emco Steel
- > Alliance Steel Fabrication
- > Precision Metal Group
- > Suez Oil and Gas Systems
- > COENS(Partner company)'s clients
- > British Petroleum
- > Exxonmobil
- > Total
- > Equinor(Statoil)
- > Woodside
- > Chevron
- > Royal Dutch Shell
- > Inpex
- > Eni
- > Seadrill
- > Transocean
- > Stena
- > Conoco Phillips
- > Technip
- > JGC
- > ABB
- > Aker Solution
- > Allseas
- > Anardarko
- > BW Gas
- > Carigali Hess
- > Dolphin Drilling
- > Modec
- > MOL
- > Jacobs
- > Mott MacDonald
- > Noble
- > Odfjell Drilling
- > Sakhalin Energy Investment Company(SEIC)
- > Samsung Heavy Industries(SHI)
- > Daewoo Shipbuilding & Marine Engineering(DSME)
- > Hyundai Heavy Industries(HHI)

## Previous Significant Projects

**2018**

**Jemena**

**\$200,000**

**Client: Suez Oil and Gas Systems**

1. fixing and repairing pipe
2. pipe flange joint and flange management.

---

**2017**

**Labour Hire- Heavy Industrial Steel Fabrication**

**\$1,000,000**

**Client: ACT Steel Works**

Steel Fabrication work is done in workshop.  
High Quality Welders are currently contracted.

---

**2014**

**Labour Hire - Steel Fabrication Welding**

**\$5,000,000**

**Client: Independent Pipe Fabrication**

Steel Fabrication project.

---

**2012**

**Welders Supply for Heavy Industrial Steel Fabrication**

**\$10,000,000**

**Client: S & L Steel Fab Pty Ltd**

Workers contracted to work on Tanks, Rails, Gas Pipelines, Bridges.

**2017**

**Labour Hire - Steel Fabrication**

**\$1,000,000**

**Client: Lawrence Engineering**

Steel Fabrication.  
High Quality Welders are currently contracted.

---

**2016**

**Labour Hire - Heavy Industrial Steel Fabrication**

**\$1,000,000**

**Client: Firequip**

Steel Fabrication project.

---

**2014**

**Architectural Design and DA Approvals**

**\$6,000,000**

**Client: B M**

Architectural designs for 23 boarding houses and obtained DA approval from council authority.
