Email: jeremy.blanch@jncgroup.com.au

JNC Group is a vibrant and successful company formed by Jeremy Blanch over 12 years ago and backed by decades of success in civil and building construction by the Blanch family, which started in Armidale and operate across Australia. JNC Group provides Federal Government, State Government Authorities, Local Government, Corporate businesses and major developers with a safe and efficient alternative source of building, construction, infrastructure and civil contracting and project management resources.

The JNC Group family network genuinely connects Australia wide. We are committed to ensuring a high standard of safety and environmental goals across all projects, whether we are working with the Aboriginal Areas Protection Authority to protect our heritage or holding an unwavering commitment to project objectives, stakeholder requirements and industry standards.

---

## Summary

JNC Group is a proudly Aboriginal owned and managed company formed in 2007. Now, twelve years on, it is a dynamic Group with capabilities across Infrastructures and Civil, Building and Construction, Fencing and Security, and LINKed - four divisions working together to achieve excellence, innovation and quality.

JNC Group offers a financially stable partner with strong revenues, established risk frameworks and a highly-accomplished Management Advisory and Leadership team. We are confident in our vastly experienced team and

commit senior resources to ensure each project's success. While day-to-day project management is led by a team of experienced Project and Site Managers, who together bring years of industry experience.

JNC Group know the Construction and Infrastructures and Civil Industry "inside out" - we know instinctively where and how operational weaknesses and malfunctions can occur - and we have the expertise to fix things, effectively, reliably, on time and on budget!

## Description

JNC Group is a vibrant and successful company formed by Jeremy Blanch over 12 years ago and backed by decades of success in civil and building construction by the Blanch family, which started in Armidale and operate across Australia. JNC Group provides Federal Government, State Government Authorities, Local Government, Corporate businesses and major developers with a safe and efficient alternative source of building, construction, infrastructure and civil contracting and project management resources. The JNC Group family network genuinely connects Australia wide. We are committed to ensuring a high standard of safety and environmental goals across all projects, whether we are working with the Aboriginal Areas Protection Authority to protect our heritage or holding an unwavering commitment to project objectives, stakeholder requirements and industry standards.

The JNC Group family is engaged with their communities and commits a large portion of profits to directly support a diversity of community projects. With a clear vision in mind we aim to empower our community. To help them achieve more, we financially support a diversity of groups. Equality forms part of our core values as we strive for excellence. JNC Group uses local staff, labour and supply chain in all our projects. This allows us to leverage local knowledge and will boost the local economy and employment over the life of the project.

Supply Nation Certified - We are proud of the different cultures that flow within our vibrant workforce and respect the First Peoples of this land. With a depth of knowledge and experience working with Indigenous businesses and procurement teams from government and corporate Australia, Supply Nation has shaped the Indigenous business sector. Endorsed by the Australian Government as the leading directory of Indigenous businesses for their procurement teams to fulfil their targets under the new Indigenous Procurement Policy, Supply Nation is an equally

trusted partner for its corporate members. JNC Group is a proud member of Supply Nation, sharing its unique and compelling vision to build a prosperous Indigenous business sector.

JNC Group has extensive Infrastructures and Civil work experience which gives us an understanding of how best to approach any project similar in nature, particularly one in our locality. JNC Group have an appreciation for local conditions such as severe weather impacts on site works, this can be the difference between delivering projects on time, and in a safe manor or having long lead delays and unproductive time spent. Flow and communication are key to the efficient delivery of services related to large scale infrastructures and civil works combined with our strict governance policies and planning procedures.

JNC Group delivers quality and multi-disciplined building and construction. We strive to make your project work by delivering cost effective construction methods, highly-skilled trained staff and contractors. We specialise in all types of building and construction contracts, delivering quality projects ranging from Defence, commercial and residential developments, bridge constructions as well as utility installations for electrical, water, waste water and gas.

JNC Fencing and Security utilises a project management-based process to initiate, plan, implement and close and review fencing projects. We provide a one stop service to supply all fencing needs and related services and coordinate the installation in conjunction with other organisations working on the site.

With over 600 national and local suppliers available to LINKed, we are confident that we will deliver excellent value for money and service. Our equipment range includes site accommodation, security cameras, traffic barriers and signalling and all construction plant equipment types. Our focus is on safety, quality services and price across construction, mining, oil, gas and building.

## Previous Significant Projects

**2018**

**Perimeter Fence and Gates around the new Western Sydney Airport**  
**\$10,000,000**

**Client: Department of Infrastructure, Regional Development and Cities**

Design and construction of Perimeter Fence and Gates around the new Western Sydney Airport at Badgerys Creek Sydney.  
20,000m of 2.4m high security chain wire fence around the perimeter of the airport site.

**2017**

**Newling Gardens Retirement Village Stages 4-7**  
**\$3,500,000**

**Client: Retire Australia Management Pty Ltd**

Newling Gardens is a gated community set in landscaped grounds. JNC Group delivered the civil works package for stages 4-7 of the development, with the scope of works including clearing and demolition, bulk earth works, level 1 building pads, storm water drainage, sewerage and reticulation and road and concrete works.

Landscaping

JNC Group's strong multi-disciplinary team and capabilities across civil engineering, construction, procurement, equipment hire, signage, fencing and landscaping

**2016**

**CW1009601 - Fence Replacement and Repairs at Shoal Bay Receiving Station and Robertson Barracks Marksmanship Training Range, Darwin NT**  
**\$2,000,000**

**Client: Aurecon for Department of Defence**

Provide new perimeter security fence in accordance with a Class 3 Security Fence rating and a Perimeter Intruder Detection System (PIDS), at Shoal Bay Receiving Station and provide Class 2 perimeter fence and posts and signage to delineate range boundary at Robertson Barracks Marksmanship Training Range.

**2017**

**High Security Fence and Gates for Australian Federal Police at AFP Facility Majura ACT**  
**\$3,500,000**

**Client: Manteena Security Australia Pty Ltd**

Design and construct 2,550m of 358 high security fence with 8 x double vehicle gates and 2 x sliding automated vehicle gates around the AFP Majura facility ACT.  
1,100m of the 359 fence was equipped with 2 x anti-ram security cables to prevent vehicle ram access  
Gates were integrated into the site security system.  
Design and construct 2,700m of chain wire security fence on the boundary of adjacent Defence land with anti-dig mesh to prevent access under the fence.

**2016**

**Costa's Guyra Tomato Farm Civil Works**  
**\$2,500,000**

**Client: Costa's**

Costa's Tomatoes, one of Australia's largest vegetable producers, undertook a \$65 million expansion to their Guyra facility - one of the Southern Hemisphere's largest and most advanced glasshouse facilities. Construction of the two new glasshouses occurred over 10 hectares and has helped the company achieve its long-term goal of producing over 20 million kilograms of tomatoes a year. JNC Group carried out the bulk earthworks formation by cutting to fill, as well as roadworks and construction o

**2016**

**Guyra Ebor Road Reconstruction**  
**\$300,000**

**Client: Guyra Shire Council**

Pavement rehabilitation and heavy patching of a 2 kilometre stretch of road which was fast deteriorating due to increasing volumes of heavy vehicles servicing the region's growing mining and agricultural industries.  
The works included pavement overlays with in-situ lime stabilisation, mixed and compacted 300 mm depth, and sub soil drainage.  
Maintaining Safety in Live Traffic Conditions  
The works were completed in live traffic conditions on this busy road which is a B-double route linking loca

2016

**NN10126 - Fence Upgrade at Lancer Barracks,  
Parramatta NSW  
\$700,000**

**Client: Augility for Department of Defence**

Upgrades to the perimeter fence at Lancer Barracks, Parramatta. The works will replace the existing timber perimeter fences with new Class 3 SP3.0m palisade style fencing and gates together with landscaping immediately inside the new perimeter. The buildings at Lancer Barracks form the oldest continuously used military barracks on the mainland of Australia. The base is heritage listed and the work was carried out under stringent environmental conditions.

2015

**3. University of New England Agriculture  
Building Civil Works  
\$1,000,000**

**Client: University of New England**

Located within the University of New England's main campus, the \$27m Agricultural Education Building (AEB) is a cutting-edge facility that will provide skilled graduates into agribusiness and deliver education and research that supports vital regional industries and communities. The design includes teaching space, wet laboratories, specialised research laboratories, a lecture theatre, a Zoology Teaching Museum and car parking. It was built to 5-star education building criteria.

Demolition Works

2016

**Satinvale Estate Early Works  
\$1,000,000**

**Client: Virkin Pty Ltd**

Satinvale is a semi-rural lifestyle development located in Armidale. JNC carried out extensive clearing operations for the developer, with the scope of works including clearing, bulk earth works, rock blasting, pavements and storm water drainage.

Blasting of Hard Rock in an Urban Environment  
JNC Groups' expertise in controlled blasting was called upon to blast large areas of rock on the surface and underground, which was too hard for mechanical rock breakers to work efficiently. Stringent saf

2016

**Wright College External Upgrades and Car Park  
\$800,000**

**Client: University of New England**

External upgrades to busy residential housing for over 200 students located at the heart of the University of New England campus.

This upgrade to the external courtyards and relaxation areas and construction of a new car park had a scope of works that included bulk and detailed earth works, car park construction, service relocations and pavements.

Public Safety on a Busy University Site

Located on the University of England's residential campus, JNC Group's approach specifically addressed t

2015

**Tablelands Clinical Education Centre Early  
Works  
\$900,000**

**Client: University of New England**

Early works for a \$7m standalone health teaching facility, a partnership between the University of New England's School of Rural Medicine and the University of Newcastle.

The Tablelands Clinical Education Centre represents a major investment in medical and health education infrastructure and is located on the site of Armidale and New England District Hospital to enable closer ties between the medical profession and future health professionals.
