A Partnership Approach

DServices has partnered with its customers since its inception. We are a trusted partner to regional and metropolitan local authorities and private sector organisations. Our working relationship with our customers is strong and our project delivery credentials are well regarded. We understand the criticality of service delivery to local communities and the need to be nimble.

Summary

At D Services we have a wide range of resources and skills to meet a wide range of projects.

- . Infrastructure & Asset Management
- . Traffic - Civil & Electrical
- . Traffic Control & Hire
- . Telecommunications
- . Project Management
- . A strong and rapidly scalable workforce of skilled and experienced personnel.
- . An up to date, well-maintained fleet of diverse plant and equipment
- . Comprehensive systems for safety, environment and

quality management

From start to finish our experienced teams remain committed to each project, delivering quality outcomes for our clients. Our workforce has a broad range of expertise who regularly undertake training that covers a wide range of subjects, ensuring we stay at the forefront of industry benchmarks.

A strong commitment and approach to emerging technology allow us to craft solutions for our clients that are reliable, forward-thinking and show how passionate we are about what we do
