Clipex has delivered some of Australia's unique solutions for over a decade. We proudly operate under a vertically integrated business model, focused on robust and cost effective solutions to protect your greatest assets.

Our unique value proposition of superior quality, strength, resilience and IP, allows us to deliver technically advanced structural and industrial projects.

We have delivered over 200 projects and 18,000 kilometres of fencing solutions across a variety of agricultural sectors including Livestock handling.

Summary

Clipex is an Australian owned family which specialises in Agricultural innovation and is built on the three core values - Quality, Integrity and Innovation.

We pride ourselves in being a fencing and stockyard solutions provider that designs, manufactures, distributes and installs over 200 products.

The Clipex story began in 2007, where founder Ashley Olsson invented the Clipex fencing posts, eliminating the need for tie wire in fencing and providing the single biggest

change in the Australian fencing industry in over 100 years.

Through innovation and technology, Clipex is proud to be leading the Australian Agricultural industry with its extensive range of livestock handling solutions safe to both operators and animals.

A decade on, we have grown into a multi-million dollar international operation, and aims to provide the most cost effective and innovative solutions available on the market to the Agricultural industry.

Description

With over 10 years experience, our team of trusted advisors have a substantial and diverse range of skillsets working with primary producers, Corporate clients and the Government sector to offer complete installed turn key solutions to match our world class products.

Clipex has now fruition into a Global market leader in fencing and stockyards. Holding numerous product and manufacturing patent, Clipex has taken the lead in producing world class solutions which are built to last and engineered to perform.

Our drive is to create world leading solutions which increase safety, productivity and financial returns. Our solutions are purposefully built for Australian conditions using premium

components as well as proprietary coating solutions ensuring maximum life.

We provide over 200 best in class solutions to the industry ranging from standard and exclusion fencing to yard solutions for major primary producers and are focused on creating products with unique, often patented features, designed to make farming easier and more efficient.

Our value Proposition:

- Superior Quality
- Superior Strength
- Patent Protected Products
- Deliver excellent ROI's
