MANY FABRICATION & ENGINEERING PTY LTD

Description

MFE Pty Ltd aims to service the needs of our local community and the various surrounding regional industries. We provide a diverse range of services, including but not limited to fabrication, machining and engineering. This enables us to offer the completion of the highest quality work for our clients at our one-stop shop.

We diversify our services by having a fully equipped workshop ready for on and off site projects. Our fixed and mobile equipment allows our team to deliver exceptional services to all projects, maintenance and repairs required by our clients.

Here at MFE Pty Ltd, we employ a wide range of trade qualified personnel including boilermaker, fitters and turners, machinists, mechanics and trade assistants. Our staff are trained in additional qualifications including:

Confined spaces
Working Safely at Heights
Elevated Work Platform (EWP)
Forklift licence
Dogging and Rigging
MR, HR and HC vehicle licences
Supervisors (S1,2,3)
Risk Management
MDG25
Demolition Supervision
WHS
Crane Licence (C6)

MFE Pty Ltd embraces a sustainable approach to decision making with respect to the environment and culture. As an Indigenous Business registered with Supply Nation, Glenn Many and the MFE team actively provides mentorship, opportunity and training to locals from indigenous backgrounds, whom represent about 25% of our workforce.

MFE Pty Ltd has a Work Health and Safety Policy which outlines our commitment, policies and procedures relevant to the occupational, health, safety and injury management processes applicable to all MFE staff.

Key objectives of our WHS policy includes:

- * To achieve a workplace free of harm.
- * To make health and safety an integral part of every managerial, supervisory and trades position.
- * To provide a continuous program of education, learning and training to ensure that our staff work in the safest possible manner.
- * To identify and control all potential hazards in the workplace through hazard identification and risk analysis, and ensure all potential accident and/or incidents are controlled and prevented.
- * To provide effective injury management and rehabilitation should it be required.

MFE Pty Ltd undertakes proactive planning of all work activities with due consideration given to the implementation of WHS controls suitable to each situation and ensures thorough, open and
