# ONE RAIL AUSTRALIA PTY LTD

As the third largest rail operator in Australia, One Rail Australia (ORA) has experience in both the local and global rail and supply chain sectors and prides itself on connecting Australian industry with domestic and overseas markets. ORA is an accredited rail operator in all mainland Australian states and Territories (apart from the ACT) including operating the 2,200km Tarcoola-to-Darwin rail line in South Australia. With operations spread over 3,700kms of owned/leased track, ORA hauled approximately 55 million tonnes of freight consisting of a variety of ores, grains, fuel and general consumer goods in 2019 alone.

## Summary

As a values-driven business, ORA combines innovation and process with a personalised approach to ensure a smooth and fully integrated supply chain solution. ORA's highly efficient operations are designed around the specific operating and delivery parameters of each of its customers. ORA also offers a regionalised business model. Management, including co-ordinators, drivers and rollingstock maintainers, are located in operational regions to ensure focus and accountability, with key corporate

support based in Sydney and Adelaide.

ORA's supply chain competencies include:

- . Rail Haulage services
- . Daily intermodal freight services
- . Terminal operations
- . Greenfield and brownfield project specialist
- . Improved customer supply chain logistics solutions
- . Project management partner
- . Infrastructure guidance

## Description

ORA is the market leader on the Adelaide-to-Darwin rail corridor. Its' intermodal service transports containerised consumer goods, general cargo, bulk liquids and project cargo between Adelaide and Darwin, servicing Alice Springs, Tennant Creek and Katherine enroute with 6 weekly return trips with a transit time of 2 days. In addition to train operations ORA's intermodal business includes the management and operation of key intermodal terminals in Darwin, Alice Springs, Katherine and Tennant

Creek.

ORA has direct access to bulk minerals handling facilities at the Darwin Port and has built train-loading sidings on the mainline at Wirrida, Muckaty and Union Reef for the loading of bulk minerals. These port, terminals and rail sidings are gateways to markets.

ORA's success is underpinned by its industry-

# ONE RAIL AUSTRALIA PTY LTD

leading safety and customer satisfaction records. ORA's values include a commitment to zero injuries to all. In 2008, 2015 and 2019 it recorded zero injuries and as a business and a team is committed to striving for zero injuries every year.

ORA looks to provide innovative customer solutions and invest in its equipment, technology and people to create a more efficient, modern

rail business.

ORA's primary objective is to deliver value to its customers through the provision of outstanding customer service, operational excellence and innovation whilst achieving an injury-free workplace and be recognised as Australia's leading rail-based logistics partner.

## Previous Significant Projects

---

Client: OM Holdings

---

---

Project: Bulk Manganese ore transportation from Bootu Creek to Darwin Port for export

---

---

Year: 2016

---

---

Value: \$25,000

---

Description: Rail haulage of bulk manganese ore from Bootu Creek to Darwin Port for onward export.

---

Client: Qube Energy

---

---

Project: North East Gas Connector Project

---

---

Year: 2016

---

---

Value: \$25,000

---

Description: ORA moved a total of 25,300 of 19.2m long gas pipes from Darwin East Arm Port to Tennant Creek from Nov 16 to Jul 17. The gas pipes were manufactured in China, exported to Darwin by sea, loaded on to wagons at East Arm Port and rail transited to Tennant Creek. There they were transferred to a laydown site north of Tennant Creek for delivery along the Tennant Creek to Mount Isa corridor.

575 wagon loads of pipe were moved to enable the NT Gas network to connect to the Eastern States.
