Taylor's Civil Construction Pty Ltd

Taylor's Civil Construction, located in Glen Innes, Northern NSW is a long term established business with over 20 years industry experience. We are an innovative company who are adaptable and reliable and are committed to positive collaboration in order to achieve shared outcomes for our clients.

We offer extensive high quality earth-moving equipment, heavy haulage, various Heavy Vehicles including truck and dogs, side tippers, water trucks and semi tankers in addition to a full Mobile Crushing and Screening Plant with all required operational Equipment.

Taylor's Civil Construction are committed to maintaining the highest standards of service delivery, safety and environmental compliance, this commitment was recently acknowledged by Taylor's nomination by Laing O'Rourke to NSW Public works to step in following Laing O'Rourke's completion of contract as the primary Contractor for the Bushfire Clean up Works for the entire Northern NSW and Mid-North Coast Region.

Summary

Taylor's Civil Construction offers extensive amounts of high quality earth-moving equipment, heavy haulage, water trucks, semi-tankers, side tippers, side lifters and truck and dogs for hire in addition to a full Mobile Crushing and Screening Plant and all required operational equipment including Loader, D8 Bulldozer, Screeners, conveyors, cone crushers and

36t Excavator. Our high standard of work, ability to collaborate and commitment to health, safety and environmental practices has enabled Taylor's to be a preferred and repeat contractor on multiple large projects within the New England and Northern NSW Region.

Taylor's Civil Construction Pty Ltd

Description

Taylor's Civil Construction, located in Glen Innes NSW is an established business in the New England. Taylor's offers hire of extensive amounts of earth moving equipment in addition to a full Mobile Crushing and Screening Plant and equipment. Taylor's Civil Construction has recently completed the NSW Bush Fire Clean Up Program, working for Laing O'Rourke. Upon completion of this project due to Taylor's Civil Construction's high level of performance with Safety and Environmental Compliance, the ability to meet required deadlines and a high standard of work, Taylor's Civil Construction was nominated by Laing O'Rourke and accepted by NSW Public Works as the lead contractor for the entire Northern NSW Region and the Mid North Coast for the clean up of all additional

properties. Taylor's has also recently completed Project works at the Sapphire wind Farm based near Glen Innes in Northern NSW. This extensive project included but was not limited to Road Construction and Maintenance, Bridge and Crossing construction, Bulk Haulage and Oversize Transport, landscape Rehabilitation and remediation works. Key Elements to this project included the maintenance and construction of roads and accessways, the acknowledgement of the involvement and authority of landowners within the project, awareness of and minimal disturbance to sensitive environmental areas in addition to high levels of safety compliance relevant to remote and regional areas.
