

MOTEURS JM

Capability Statement

5 February 2021

INDUSTRIES SERVED

| CLEAN ENERGY | DEFENCE | MANUFACTURING | MINING | OIL, GAS & ENERGY | RAIL |
STEEL | TRANSPORT | WATER |

Company Details

Address: ZI BP 23, 1 rue du Stade, Domfront en Poirraie Lower Normandy, 61700 France

Ph: +33 2 3330 7330

Email: commercial@moteur-jm.fr

Web: www.moteurs-jm.com

ICN Gateway Company ID: 160295

Foreign Manufacturer: Yes

Exporter: Yes

Contacts

Sylvain Bacon

Ph: +33 2 3330 7330

Mob: +33 6 2539 5301

Email: sylvain.bacon@moteur-jm.fr

MOTEURS JM

MOTEURS JM is a Designer & Manufacturer of reinforced, protected & customized, Water & Air cooled Electric Motors for severe environments since 1948 (temperature, humidity, salinity, aggressive gas, vacuum, pressure, dust, irradiation, vibration...), in the small to medium range of power (from 1 to 500 kW) , based on client's technical specifications

References in:

- . Defense (submarine & surface ship applications: Capstan, Windlass, Azimuth, Propulsion electric motors),
- . Heat Treatment, (Furnaces, Autoclaves...)
- . Tunnel Boring Machine,
- . Energy...

Summary

Designer & Manufacturer
of reinforced, protected & customised,
Water & Air cooled Motors
for severe environments
since 1948
(temperature, humidity, salinity, aggressive gas,
vacuum, pressure, dust, irradiation, vibration.),

in the small to medium range of power (from 1 to 500
kW) , based on client's technical specifications

References in :
Defence (submarine & surface ship applications:
Capstan, Windlass, Azimuth, Propulsion),
Heat Treatment, Tunnel Boring Machine, ...

MOTEURS JM

Industries Served

- Clean Energy
- Defence
- Manufacturing
- Mining
- Oil, Gas & Energy
- Rail
- Steel
- Transport
- Water

Major Clients

- Naval Group, Mactaggart Scott, Andritz, SMS, Koshua, Yutai, ECM, BMI, ALD, IPSEN, Fengdong, MTS Perforator, Dosco, EDF, ORANO, Airbus, GE, Alstom, ArcelorMittal, Mars, Saint-Gobain...

Products & Services

- Protected electric motors, designed for demanding environments (temperature, humidity, salinity, aggressive gas, vacuum, pressure, dust, irradiation, vibration..),
- in the small to medium range of power (from 1 to 500 kW) , based on client's technical specifications
- Applications :
- Defence : Submarine & Surface ship : Windlass, Capstan, Azimuth, Propulsion, ...
- Heat Treatment : Furnaces and Autoclaves
- Sterilization
- Tunnel Boring Machine
- Mining
- Transportation Equipment: Rail, Others...
